

# Genetically Modified (GM) Sweet Corn Inquiry Form

To be filled out by Grocery Store, Produce or Farm Stand Manager

Please notify me to pick up the completed form:

Name:

Phone number and/or email:

---

**Background:** Genetically modified (GM, also called genetically engineered) corn is one of 4 GM crops grown in Canada: canola, soy, and white sugar beet (for sugar processing) are the others. The GM corn grown in Canada has been, up to this point, all hard corn used for processed food ingredients and animal feed. GM sweet corn is new and we are asking for your assistance. [For details please see www.cban.ca/gmfoods](http://www.cban.ca/gmfoods)

## Questionnaire

**Date:**

**Name and Title:**

**Grocery Store/Farm Stand Name & Location:**
