

Canadian GM Flax Contamination Crisis Continues

Author: Lucy

Sharratt<info@cban.ca><p>Farmers in Canada are in the midst of a serious economic crisis created by GM flax contamination.</p><div class="object-right"><div class="content-view-embeddedmedia"><div class="class-image"><div class="attribute-

image"><p></p></div></div></div></div><p>In late 2009, the GM contamination reached 35 countries and closed the European and other markets. The GM flax seed has been illegal to sell in Canada since 2001 and is not approved for human consumption outside of Canada and the US. The GM flax contamination crisis warns of the

consequences if GM alfalfa or GM wheat are introduced.</p><p>Click here for information and action.</p>
